

In preparation for the CABO exam which will be written and administered online this year, we are placing the ABOA 2011-2012 Refresher exam online through the Arbiter System.

As you are an existing user of Arbiter you will be prompted to join an ABOA Supergroup upon your next log into Arbitersports.

Please accept the invitation to join as this is where the online refresher exam will be administered

Once you have accepted the invitation to join and sign into Arbiter sports you will be able to switch between your regular Group association (ie EBOA) as well as the following 2 additional options:

ABOA Supergroup Admin
ABOA Supergroup Central Hub

To access the test choose Switch Views at the top right of the screen and scroll down and click on

ABOA Supergroup Central Hub

Once in the central Hub, click on the Testing Tab and go to the Open Tests section.

Read the instruction and you can then begin taking the test.

The refresher exam this year exam contains 50 questions. Each question is either yes or no.

There are no rule references with the answers to encourage you to check the rule book should you answer a question incorrectly.

Remember this year's national exam will be done online. The national exam also contains 50 questions and will have a 90 minute time limit so you might want to informally time yourself as you work through the refresher exam.

You have been given 10 chances to take the test to give you the opportunity to revisit the questions over the next few weeks prior to taking the CABO exam.

If you have any questions regarding the exam please contact me at the following email: mmunroe@shaw.ca
